ONCE AGAIN, SKINHEAD WAS FORCED TO ADOPT VIOLENT MEASURES TO SURVIVE.

HIS UNHAPPY BACKGROUND HAD BEEN A VIOLENT ONE, AND THE S.P.G. POSED NO IMMEDIATE THREAT TO HIS FREEDOM AND WELL BEING.

AFTER SEVERAL MINUTES THE POLICE RETREATED, AND SKINHEAD'S ATTEMPTS TO COMMUNICATE WITH THEM WERE IGNORED.

AS THE POLICE SCOUR A HENRY BUILDING SITE FOR BRICKS AND LEAD PIPES, SKINHEAD K.O.'S A PASSER BY, AND THEN FLEES IN CONFUSION.

"ELVIS - HE WAS MY LOVER" SAYS SEXY LIZ

In her Beverley Hills mansion, Hollywood star scrubber LIZ LOVECHILD speaks exclusively to VIZ COMICS, for \$10,000

I'll never forget the first time I laid Richard Burton. He was a 10 year old virgin when I met him at a party thrown by Marilyn Monroe. I just had to have him. We spent many happy evenings together, exploring each others bodies and doing it all the time. He was no good in bed, and left me with 6 love children.

MADE LOVE

I first met Paul Newman at a cocaine party held by film director Ivor Perversion. Paul was well developed. He gave me some green tablets and afterwards we made love fifty times on the table. Later that evening I met Mick Jagger, and it wasn't long before we were loving each other in the bathroom.

I gave birth to John Wayne at a Hollywood party when I was 14. Red Stewart was the father. Red was such an exciting lover. We would go together in the swimming pool for weeks at a time. He was a tremendous lover, and he gave me some of the happiest times of my life. I knew we were in love.

FIRST TIME

I had slept with many men before I met Clint Eastwood, but never found real happiness. Clint was a real man, and really good in bed. I'll never forget our first time. It was at a film premiere in L.A., and had just spent two wonderful hours exploring Kirk Douglas. I met Clinty and we knew that we were in love. He was so gentle, and we made love for seven days without stopping.

I'll never forget the day I met Robert Redford. I had just divorced Tom Jones on

the grounds that he was no good in bed, and was suing him for ten million dollars. Bobby had just left Britt Ekland. He was a terrific lover, and we would spend many happy evenings giving ourselves to each other. One day I woke up next to Burt Reynolds. Burt gave me three of the happiest years of my life - he was so caring, and a real man in bed. He still sends me maintenance for our love child.

IN BED

I spent many happy years as the Queen of Monte Carlo. I met King Pascal-Lotusson in Bordeaux, and despite being a monarch he was a warm, kind man, and really good in bed. He was 107, and he left me three countries when he died. I remember how he used to call me "Bready", because of his wild passion for my breasts.

Not many people know that I first made love to Prince

• Sexy Liz Lovechild

Charles when I was 4. Some at Studio 54 in New York. Charlie was only 3, and I had always been attracted to younger men. He was a real royal lover, and I spent some of the happiest years of my life exploring his body as he satisfied my needs.

(Oh yes, I screwed Elvis Presley as well).

IT'S A DOG'S LIFE!

by Billy Deserk

John Jackson yesterday spoke of his relief after finding his young puppy 'Spot' hiding behind the T.V. set!

For so-careless John had lost his pet earlier in the day while out for a walk. After searching high and low, he returned to find the mischievous pup asleep behind the T.V. set!

DOG

John told us what happened:- "I went out to walk the dog in the park this morning and suddenly I noticed he had disappeared. I went back to the house after looking round a bit, and there was Spot, snoozing behind the tele!"

HOUSE

P.S. Bob Deythe who joined John to search the park takes up the story:- "I met John in the park this morning and he told me his dog had gone missing so we had a look around the park, and when we went back to his house, there was the dog, sound asleep behind the telly!"

Spot the pup was today in the dog house after being chided by John for his little misadventure behind the gongoloso. "He won't go missing again", said John. "In future I'll keep him on his lead!"

T.V.

But everything turned out for the best in the end! When John came home this morning he found the wayward Labrador pup asleep behind the T.V.

Spot the puppy is 6 months old.

2-STROKE TAKES AWARD

Newcastle's music maestro and legend in his own lifetime, Arthur 2-Stroke, self styled leader of the Chart Commandos and king-pin to the local Rati Pop organisation was recently presented with a camouflage disc at a special reception held in his honour at the Gasforth Hotel, Newcastle.

The reception was attended by a variety of stars from the music world, including members of leading rock band The Nine Tons, another group who began in the North East, and themselves holders of a gold disc.

2-Stroke, who will be charting shortly, is seen above receiving the award from top Vix Comic executives in chief.

Looking well pleased, he said it was "unbelievable" that his disc had "gone camouflage already".

Arthur 2-Stroke & The Chart Commandos will continue to play gigs in the North East, many of which will be at the Gasforth Hotel (Salters Road, Conforth) on Monday nights. Look out for details in the press etc.

READ AND LEARN

ONE WEEK, MONTH, YEAR, OR APOCALYPSE

THE BERMUDA TRIANGLE

Well, as you know, this has for years been the world's greatest unsolved mystery. It dates back to Roman times when the triangle, bordered by the famous Homan Wall, was used by the gladiators as a bull ring. It was built originally in the Valley Of The Kings, Egypt's capital city, as a tombstone for the now famous Napoleon. After his defeat at Dunkirk in 1866 at the hands of William The Conqueror, the triangle was shipped to it's present location at Stonehenge, where it still stands today. Many mysterious vanishings have occurred in the triangle, and these are put down to the legendary Loch Ness Monster, a kind of Himalayan snowman known to the locals as 'Yeti'. Amongst the best known ships to have gone astray in the triangle are the Marie Celest, whose captain, Colonel Crab, was never seen again. Perhaps the largest victim was the Titanic, the world's first turbine driven iceberg, which is now on display at the Natural History Museum in London. Many people have tried unsuccessfully to solve the mystery, among them Arnold Samsonson who lived to the centre of the earth to find the monster. Sir Donald Campbell is thought to have perished whilst pursuing the monster in his 'Bluebird', a car which had held the world speed record for a steam locomotive for several years in 1926. Despite the recent discovery of North Sea oil in it's depths, the triangle is open to tourists in summer.

See you next time!
